TAMRF FY 2010 Administration Service Rates

The Research Foundation met with representatives of Texas A&M University (TAMU also represented Texas A&M University at Galveston), Texas AgriLife Research, Texas Transportation Institute, The Texas A&M Health Science Center, and Prairie View A&M University for the purpose of establishing the administration rates for Fiscal Year (FY) 2010.

The methodology used for FY 2010 rates was the same used for the FY 2009 rates. Expenditures categorized as scholarships, tuition, equipment and cash balance accounts will be charged at a fee of 2%, as fewer resources are required to manage these types of expenditures. Sub-awards with direct expenditures greater than $500K will not be charged an administration fee. Sub-award direct expenditures less than $500K and all remaining direct expenditures will be charged at the direct rate calculated for each System Member which is based on volumes.
